August 05, 2014

**LETTER OF RECOMMENDATION**

This recommendation is written in appreciation for the outstanding track work performed by G.W. Peoples Contracting Co., Inc. in support of our System-Wide Repair/Rehabilitation Contract with the Washington Metropolitan Area Transit Authority (WMATA); including the following activities:

**System Wide Cross Tie Replacement  
System Wide Tract Fastener Replacement  
System Wide Third Rail Insulator Replacement  
System Wide Contact Rail Replacement**

As a program manager for Potomac Construction, I have worked closely with G.W. Peoples and WMATA on the track rehabilitation projects since February, 2011 and have received nothing but positive comments on the work performed by G.W. Peoples. "Work was always completed on time, to the satisfaction of WMATA and their employees have a positive can-do attitude and pleasant to work with." This kind of expertise, dedication, and support is seldom equaled and never surpassed.

I am happy to recommend the services provided by G.W. Peoples Contracting Co., Inc., and if you have any questions, feel free to contact me.

Ernest V. Hamilton  
Program Manager
